particular value at this time, but in regard to silver he said he considered the question as dead as slavery. He regarded the insular decision as a doctrine strange to the constitution and dissenting opinions of the chief justice and Justice Harlan as the only opinions that did not do violence to the traditions of the court.

Of Justice White's opinion he said that it arrived at a wrong conclusion literally from a bad premise, and remarked: "The decision seems to be that the constitution follows the flag at a sufficient distance to leave room for the Foraker bill to pass between them."

He was taken to Green Bay this morning. His bride bade him farewell in the jail last night.

## ST. PAUL SYSTEM TO CHANGE HANDS

HERRIMAN SYNDICATE HAVE GOT CONTROL OF ROAD.

The Northwestern is Also Said To Be in the Same Syndicate—J. C. Stubbs and Darius Miller Will Be the Managers for the Two Great Combines.

New York, June 18.—While no authentic information can be obtained as regards the acquisition of a controlling interest in the Milwaukee & St. Paul by the Harriman syndicate yet no doubt is entertained by railroad officials here that a deal has been effected. The fact that President Earling of the Milwaukee and St. Paul left for New York yesterday morning is taken as an indication that the reports are correct. The further advance in St. Paul yesterday of over five points is also strong proof that a change in control is contemplated.

## Northwestern Will Join

The report is that Mr. Harriman is acting for the Vanderbilts and J. Pierpont Morgan, and that the Chicago and Northwestern will join with the Union Pacific and Southern Pacific in guaranteeing the offer made to the St. Paul stockholders, which is said to be \$200 a share in 4 per cent bonds.

All the roads in the middle West and Northwest in which E. H. Harriman, J. P. Morgan, the Vanderbilts and J. J. Hill are interested hereafter will be practically under one management. J. C. Stubbs, now third vice president of the Southern Pacific, will be the traffic expert, or manager for the Harriman group of roads while Darius Miller, Second Vice President of the Great Northern, will occupy a similar position for the Hill roads.

Mr. Stubbs' New Duties. Mr. Stubbs will have full charge of all the traffic affairs of the Union Pacific, Southern Pacific, Oregon Short line, and Oregon Railway and Navigation company. He will also have charge of the transcontinental traffic affairs of the Chicago and Northwestern, Chicago and Alton, Illinois Central, Milwaukee and St. Paul, and one or two other lines that may come under the Harriman control.

Darius Miller, one of Mr. Hill's trusted lieutenants, will be the traffic expert of the Burlington, Great Northern, and Northern Pacific roads, and to these may be added later on the Chicago Great Western, Wisconsin Central, Minneapolis and St. Louis, and Iowa Central. Mr. Miller it is understood, will also be made second vice president of the Burlington road.

## ORGANIZE A BIG ELECTRIC ROAD

TO BUILD A LINE BETWEEN CHICAGO AND MILWAUKEE.

Northwestern Road is Behind the Scheme—Janesville Will Be Connected with Proposed Line—Will Be Completed by January 1—To Carry Freight and Passengers.

From Chicago to Milwaukee in two hours and thirty minutes by electric road will be a possibility by Jan. 1, 1902, according to the plans of the new Chicago, Kenosha and Milwaukee electric railway company, incorporated yesterday in Wisconsin. When the electric system with its connections is fully developed, it will be possible for a passenger to take a car at any union loop station of the Northwestern elevated railroad and be in Milwaukee two hours and thirty minutes later.

## Freight and Passenger.

After years of quibbling the necessary connection of the Chicago and Milwaukee electric line north of Waukegan to Milwaukee has been secured. With the right of way which the Northwestern elevated expects to obtain over the tracks of the Chicago, Milwaukee & St. Paul railroad the electric line will be complete from Chicago to Waukegan, and with the building of the new line in Wisconsin the connection with Milwaukee will be secured.

Both freight and passengers will be carried over the electric road. Arrangements are being made with belt lines to secure the handling of freight. Side lines have been staked out, one to connect with the Chicago, Milwaukee & St. Paul road at Truesdel and another to connect at Janesville.

## Officers of New Company

Northwestern Elevated and Union Loop interests are known to be behind the new company which received its charter yesterday. The incorporators of the Chicago, Kenosha and Milwaukee road are James Cavanaugh, John C. Slater, and Michael Harkins of Kenosha. The officers of the company are: President—Alexander Clark of Evanston. Vice President—George S. Rhodes of Evanston. Secretary—James Cavanaugh of Kenosha. Treasurer—George Rhodes of Evanston.

Proposition to Milwaukee Railway. To facilitate the entrance of the electric road into Milwaukee the company has submitted a proposition to the Milwaukee Electric Light and Street Railway, which, if accepted, will make the lines of that company a part of the general system. If the offer be not accepted the company is prepared to build its own line into Milwaukee, paralleling the Northwestern tracks.

## JURY IS CHOSEN IN 35 MINUTES

Trial of Thomas Barker for Attempted Murder of a Pastor.

## SENSATIONAL CASE

Rev. John Keller Charged with a Horrible Crime by the Husband.

## DETAILS OF THE TRIAL

New York, June 18.—The case of the state of New Jersey against Thomas G. Barker, charged with feloniously assaulting the Rev. John Keller at Arlington, N. J., of Feb. 3 last, began before Judge John A. Blair in the Court of General Sessions, Jersey City, at 10 o'clock. With perhaps the single exception of the Boaschliet murder in Paterson last fall, and the trial of the four participants in that affair, no criminal event in New Jersey in years has attracted greater attention or has been so generally discussed and argued from all points of view as has this curious case. It was not the mere fact of the deadly assault itself, shocking as that was, which so intensely moved people. It was the motive given by the assailant for his action. In explaining why on a Sunday morning he shot down in the street of Arlington a clergyman generally beloved and respected Barker made a charge against his victim so horrible that its bare recital stirred men's blood even more than did the deadly assault itself. If it were true, they said, no man could marvel at Barker being driven to frenzy on hearing the story from the lips of his wife. On the other hand, if the charge was based on a half-crazed woman's hallucination or if it was a malicious falsehood, never was there a man more cruelly wronged than was the Rev. John Keller. In spite of all the bitter factional feeling which the case has stirred up, it only took thirty-five minutes from the time the first juror was called till the jury was complete. The one thing that everybody had been sure would happen did happen. Marshall W. Van Winkle, the counsel for Barker, did not make merely a feint at confuting the fact of the assault itself. On the contrary, with all the devices and contentions known to the mystery of legal fencing, he fought apparently with sheer desperation every scrap of testimony that went to establish that Mr. Barker had shot down Mr. Keller. Witness after witness testified to seeing him and identifying him running away from the scene of his crime. Still another witness testified to running after him, catching up with him, and hearing from his own lips the confession that he had shot Mr. Keller and that he was only sorry he had not killed him. These witnesses he attacked and harassed with a fire of cross-questions and made strong appeal to the court against the admission of their evidence.

## BRITISH PURSUE THE MAD MULLAH; HEAVY BATTLE FOUGHT AT ZARIBA

London, June 18.—A dispatch to the foreign office from the consul general of Somaliland shows that the mad mullah expedition has had heavy fighting. May 28, the fling column of mounted infantry under Captain Merewether struck the mullah's supply camp during a night march and captured 5,000 head of cattle killed one important chief, covered 100 miles, fought a sharp action and returned to its base, all in twenty-four hours. The main force of the British under

Colonel Swayne departed for Eldab June 2, leaving MacNeill with 300 men to guard Zariba. Swayne's column advanced against the mullah's base. In the meantime the mullah with 3,000 followers attacked Zariba three times. He was finally driven off by Captain McNeill with a loss of 500 men. The British in Zariba had ten men killed and nine wounded. The mullah is now cut off from his base and a decisive action is eminent.

# CONFESSION OF AN AMATEUR COOK IN A KOSHKONONG SHOOTING CAMP

How Ex-Gov. Geo. W. Peck Served a Meal to the Club Members, Most of Whom Were from the City of Janesville.

Ex-Governor George W. Peck writes the confessions of an amateur camp cook, which are published in the "Northwestern Sportsman" for June. It is as follows:

I suppose there is no man who has arrived at middle age but believes he can cook better than anybody. I have always labored under that belief, and the amount of kicking I have done about the cooking in the house during the past forty years would fill a book. It has made no difference whether it was the coffee that was not right or the pancakes or the corned beef, I could tell at a glance that they needed more shortening, and many is the cook that wanted to pack up and leave the house because I wanted to show her how to do things. But I never had a good chance to show my proficiency at cooking until three years ago. A new shooting club was started on the west shore of Lake Koshkonong, and when I found that one of the rules that no cook should be employed, but that all the members should take a hand at cooking, making up the beds, washing dishes, etc., I couldn't get in the club too quick. The first week I spent at the club I couldn't get a chance at the cook stove, as the older members claimed the right to practice on us. We had some awful meals but there were no fatalities.

The next week the novelty had worn off and the older members got their heads together and unanimously sawed the next day's cooking off onto me. Everybody got up early and took a cold lunch in lieu of breakfast, and went out shooting. I was to do the cooking, and all were to round up at noon, with their appetites.

Actually, I had never done any cooking, but had seen cooking done since I was a boy, and I sat down to think it over alone. I thought out a dinner of fried salt pork, baked potatoes, fried eggs, milk gravy, such as mother used to make, and coffee, and an old fashioned Johnny cake. The potatoes were easy, and about eleven o'clock I got them in the oven, and began to carve the pork. The pork was rusty, so I put it in a spider with some water as I had seen done a thousand times, but I made the mistake of putting in some soap, and making a suds, to wash the rust off. I never realized the mistake until dinner time. Well, for nearly an hour and a half I worked, frying pork, trying the eggs, occasionally stabbing a potato to see if it was done, mixing the Johnny cake, and finally threw my whole soul into the milk gravy, and as the boys came in, hungry as bears, I put the things on the table and sat down in the door to cool off, and to put court plaster on my hands where the hot fat had splattered on me. I was in no mood to listen to any criticism on my cooking, and when Mr. Lougee got a potato skinned and asked somebody to pass the "oil poster's delight," alluding to my milk gravy, I was hurt. It was true that I got too much flour in it, and it would not come off the spoon except with a dull thud. It seemed wrong to speak of my gravy contemptuously. And after he had tasted it, and put on a look of agony, I could have cried.

Prof. Scavien, who can cook pretty bad himself, took one of the fried eggs, and after eating a piece, of it, he looked wise, but kept still until the others had eaten a few eggs, when he asked me what I seasoned the eggs with. I told him I had used salt and pepper, the salt out of that tin pail, and the pepper out of the tin shaker on the window, and I felt as though I should sink when he turned to the boys and said:

"Our new cook has raised hell on his watch. The salt he used was some Epsom salts and the pepper was some flea powder I got to kill the fleas on Nichey, the Indian dog."

The men looked at me as though they would like to bathe in my gore, but I tried to square myself by getting the salt and pepper to show them, ting the salt and pepper to show them

## Eruptions

Dry, moist, scaly, tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

The thing to do is to help the system discharge the humors, and to strengthen it against their return.

Hood's Sarsaparilla permanently cured J. G. Hines, Frank, Ill., of eczema from which he had suffered for some time; and Miss Alvina Walter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of this great medicine than can be published.

## GREAT AUDIENCE PACKED THE HOUSE

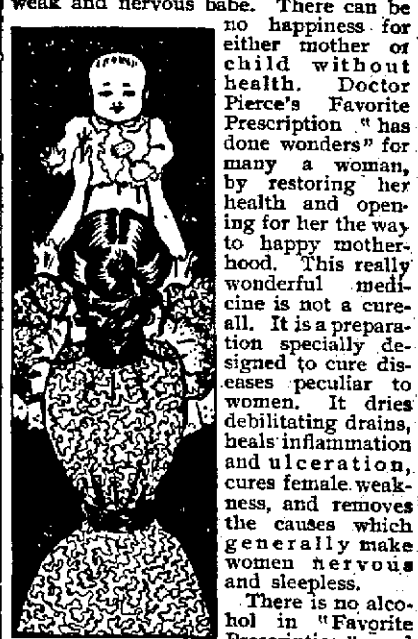

Hortense and Marie Nielson Company Open a Week's Engagement at Myers' Grand.

Hortense and Marie Nielson and their capable repertoire company opened a week's engagement at the Myers Grand last evening, entertaining the great audience which packed the theatre with the strong drama, "Under Two Flags," founded on Ouida's celebrated novel. The honors of the evening were captured by Hortense Nielsen as "Cigarette" the French camp follower, a pathetic and courageous character which is full of dramatic opportunities. Marie Nielsen, as Mam'selle Eschen, also made a decided hit, although her part was a minor one last evening and Annie Hamilton was very acceptable as Lady Venetia.

The hero of the play, Bertie Cecil was well interpreted by Harry Dris-

## A Happy Mother

Frolicking with her baby makes one of the prettiest spectacles ever seen in the home. But nothing is sadder to see than the unhappy mother, weak and nervous, striving in vain to hush the cries of her weak and nervous babe. There can be no happiness for either mother or child without health. Doctor Pierce's Favorite Prescription "has done wonders" for many a woman, by restoring her health and opening for her the way to happy motherhood. This really wonderful medicine is not a cure-all. It is a preparation specially designed to cure diseases peculiar to women. It dries debilitating drains, heals inflammation and ulceration, cures female weakness, and removes the causes which generally make women nervous and sleepless.

It contains no opium, cocaine or other narcotic.

Mrs. James W. Blacker, of 629 Catherine Street, Syracuse, N. Y., writes: "Your medicine has done wonders for me. For years my health was very poor. I had many nervous headaches, and since taking Dr. Pierce's Favorite Prescription and Golden Medical Discovery I have much better health, and now I have a fine healthy baby."

Use Dr. Pierce's Pleasant Pellets with "Favorite Prescription" if the bowels are inactive or irregular.

coll, who during the last winter, was leading man in Augustine Piton's "Gunner's Mate." C. A. Adams was very clever as his Irish servant and John Dowd looked and acted the part of the villain, while J. H. Lewis was excellent as Lord Rockingham.

Mr. Lewis was for many years stage manager at Walack's theatre, New York, and was also stage manager for Maggie Mitchell whose play, "Pearl of Savoy" will be presented tonight. Mr. Lewis plays the same part tonight that he played when with Miss Mitchell. Tonight's play is bright and full of comedy.

HORTENSE NIELSEN

It will certainly please the people, probably better than "Under Two Flags" which is famous as a dramatic sensation rather on its merits and its interest. The company's certainly one of the best repertoire companies seen in this city in a long time.

## Mother's Friend

Those who do know about it wonder how they ever got along without it. It has robbed childbirth of its terrors for many a young wife. It has preserved her girlish figure and saved her much suffering. It is an external liniment and carries with it therefore, absolutely no danger of upsetting the system as drugs taken internally are apt to do. It is to be rubbed into the abdomen to soften and strengthen the muscles which are to bear the strain. This means much less pain. It also prevents morning sickness and all of the other discomforts of pregnancy. A druggist of Macon, Ga., says: "I have sold a large quantity of Mother's Friend and have never known an instance where it has failed to produce the good results claimed for it."

A prominent lady of Lambert, Ark., writes: "With my first six children I was in labor from 24 to 30 hours. After using Mother's Friend, my seventh was born in 4 hours."

## CHANGES DIPLOMATIC POSTS

Loomis Is Transferred from Venezuela to Portugal.

## S. F. EDDY IS PROMOTED.

Illinois Boy Is Made First Secretary at Constantinople—Herbert W. Bowen, Now Minister to Persia, Will Be Sent to Fill Caracas Vacancy.

Washington, D. C., June 18.—Several changes which have been made in diplomatic posts are announced. They are as follows: Francis B. Loomis, minister to Venezuela, has been transferred to be minister to Portugal, vice John N. Irwin of Iowa, resigned. Spencer F. Eddy of Illinois, present second secretary at Paris, has been made first secretary at Constantinople, to succeed Mr. Griscom. Herbert W. Bowen of New York, present minister to Persia, has been transferred to Caracas, succeeding Mr. Loomis as minister to Venezuela. Lloyd C. Griscom of Pennsylvania, present first secretary of legation at Constantinople, has been made minister to Persia. Arthur Bailey Blanchard of Louisiana has been promoted from third to second secretary at Paris.

The President has made the following appointments: Frank L. Shaw, collector of customs, Machias, Maine. Major George Richards, lieutenant colonel by brevet, marine corps. Captain Newton H. Hall, major by brevet, marine corps. Martin E. French, lieutenant, navy. Gatewood B. Lincoln, lieutenant, junior grade, navy. Herbert M. Tolfree, assistant surgeon, rank of lieutenant, junior grade, navy. Charles W. Rae, to be advanced three number in rank on the list of commanders in the navy, for eminent and conspicuous conduct in battle.

## No Concession to Castro.

The transfer of Francis B. Loomis from Venezuela to Portugal and Herbert W. Bowen from Persia to Venezuela is not regarded as a concession to President Castro of Venezuela. It was impossible for the President to send Mr. Loomis back to Venezuela after the attacks made upon him, and he gave Loomis another post quite as honorable and more congenial. But in transferring Bowen to Venezuela, as the United States minister, the President has selected a man of firm fiber, and will give him detailed instructions.

## Griscom Has Good Record.

Lloyd Griscom has had a short but brilliant career as first secretary of legation at Constantinople. He has discharged his full duties of a minister at that important capital for several years, and, if the American mission claims have been successfully adjusted at last, a large part of the credit belongs to him. He receives in his new capacity a salary of \$5,000 a year. He is a son of the president of the American Line Steamship company. A. B. Blanchard, who becomes the second secretary to the embassy in Paris, has been in Paris less than one year. He is related to ex-Senator Blanchard of Louisiana.

## FARMERS ON THIEF HUNT.

Society Organized Near Elgin to Protect Horses.

Elgin, Ill., June 18.—The farmers of Virgil Township who organized against horse thieves have had a chase after them at night. One farmer was wounded and one of the horse thieves was shot, but, with his companion, succeeded in reaching the railway track and escaping. Horse owners have been on the alert for the last few weeks, as it was reported that the thieves were about to commence active operations again, after having been in hiding for a few weeks. Robert Watson, who owns a ranch four miles from Elgin, almost lost a horse, so guards were placed at the barns of the farmers and a constant watch kept. At 9:30 o'clock Elmer Troyer, who was secreted in the corn crib at Watson's premises, saw two men come from a grove and go towards the horse barn. He challenged them, and they replied by opening fire on him. Troyer promptly replied and hit one of them, who fell. His companion continued to shoot and hit Troyer in the right arm, disabling him. The firing aroused neighbors and a posse of 200 farmers turned out within a few hours. Most of them were mounted, and they searched the country until nearly daylight, when a trail of blood was found leading from the spot where the shooting took place. It was followed some distance and lost. The men went in the direction of the railroad tracks, and are thought to have boarded a passing train.

## Itala Case Is Settled.

Washington, D. C., June 18.—The United States and Chilean claims commission has completed its work. The last case to be decided was that involving the seizure in 1891 of the Chilean vessel Itala by the authorities of the United States on the ground that the steamer was carrying a cargo of contraband arms to Chile. The claim was for \$240,255, with interest, and was made by the South American Steamship company, which had chartered the ship to the Chilean government. The decision dismisses the case.

## Kills a School Principal.

Dothan, Ala., June 18.—Professor Rankin, until Saturday assistant principal of the Dothan public schools, shot and killed George R. McNeill, principal of the schools, and then turned the revolver upon himself with fatal effect. Professor Rankin had been dismissed from his post and he tried to have the matter re-opened, but without success. Professor McNeill leaves a widow and three children.

## STILL FIND DELAY IN BELOIT COUNCIL

That Body Rejects Tee Rail Proposition of the Beloit, Delavan Lake and Janesville Road.

H. H. Clough and R. W. Hill were in Beloit last evening and attended the meeting of the Beloit council. An application had been made to have the franchise granted the Beloit, Delavan Lake and Janesville electric railway changed so as to allow them to use tee rails in the city instead of the flat rail as demanded of the franchise. An effort was made to pass the amendment under a suspension of the rules. The motion was lost by a vote of 5 to 4, a two thirds vote being necessary.

The promoters are confident that the amendment will pass the council at the next meeting as most of the members of the council are in favor of the change. They are also experiencing some difficulty in getting a right of way through the town of Rockton, Ill. The county board of supervisors has granted the road the right through the county, but the town board refuses to give them the right through the town.

It is these minor difficulties that are delaying the construction of the road. The most of the material has been purchased and as soon as the levels at the new route between this city and Happy Hollow are established they will be in a position to let the contract for the construction of the road.

The survey for the new road is completed and Engineer Jackson and his assistants started out this morning to take the levels. The right of way has all been secured except over the farm of Anthony Dixon, where the line runs in front of his front door and makes it very unpleasant for him.

They hope to get all of these matters straightened out in a short time so there will be no more trouble about building so far as the right of way is concerned.

## ABSOLUTE ZERO.

Prof. Dewar gave a lecture last Saturday in London which was on the subject of "Liquid Hydrogen" and was illustrated by some of the most remarkable experiments the world has ever seen. When air was liquified the public was astonished at the degree of cold necessary to accomplish the feat, but some idea of the difficulty of it. Prof. Dewar's experiments can be obtained by the statement that compared with liquid hydrogen liquid air is a molten mass. The peculiar interest in these experiments of exceedingly low temperature lies in the fact that the scientists are constantly getting nearer the point called "absolute zero" which means that at the temperature of 273 degrees C. below zero a point is reached at which motion in the constituent molecules of matter ceases; and because all heat is the result of this molecular motion, this absolute zero marks the temperature of no heat, or the probable temperature of matter when the flat went out calling the world into existence.

Again the point may represent the temperature of space which has caused our astronomers so much trouble.

But aside from the foregoing reasons for congratulation, we are more interested in the ability of a man to wrestle from Nature her deepest secrets. Here is a human being reducing a gas fourteen times lighter than air, to a liquid which represents a temperature of 265 degrees C. below zero and with that liquid gas proposes to go farther and liquify the only remaining gas Helium which is still lighter than Hydrogen. We may ask the question, "What will this wizard do when he has accomplished the last feat? And the answer comes that by that time some other scientist will have discovered and isolated a new gas for his study and reflection.

The scientific research of modern years, causes previous efforts to sink into insignificance in comparison, and yet as fast as questions are settled to the satisfaction of all, new ones are propounded by Nature which causes the efforts of research to go on uninterruptedly, ever advancing towards but never reaching the omniscient mind of God, the Infinite.

## OUTINGS FOR THE POOR.

The churches of New York and Chicago are making preparations for summer outings for the poor children. Last year New York took care of 25,000 children, besides their own church picnics; most of the organizations own or lease their farms or seaside resorts where the little ones are kept from two weeks to a month enjoying the freedom and abandon of country life, and besides receiving the physical benefits of pure air and water, they receive such an education along practical and aesthetic lines that they never forget it.

Last summer a party of fifty waifs were given an outing at one of the suburbs of Chicago and the way their eyes bulged out at the sight of apples on the tree, and the hired men milking cows, was a caution. Many of them had never seen a cow and most of them thought apples grew in barrels.

This instance simply shows how short our city poor are on Nature. They are all acquainted with the dark and devious ways of sin, but of the beauty of growing flowers, a running brook bubbling with sparkling water, and a farm waving with billowy grain; these are sights they cannot forget because it marks an era in their city life, and makes an everlasting impression.

Those who have tried it find the greatest pleasure in planning these outings for those who cannot have them except as a gift. So much pleasure is added to one's own outing by realizing that they have added an inexpressible joy to lives otherwise barren of the ordinary pleasures of life.

## REPRESENTATION IN CONN.

It is hardly credible that one of our New England states still clings to the antiquated colonial method of representation. The Connecticut legislature has just refused to allow the people to vote to re-apportion the representatives.

As it is now, towns almost without population have the same representation as the populous cities, which of course gives the interests of the manufacturing centers into the hands of towns.

It is not impossible that the conservatism of the present legislature may defeat its purpose by leading to an irresistible demand for a constitutional convention which will place representation up on a proportionate basis as it should be.

One of the many admirable acts of Gov. Odell of New York, is his veto of the North River Bridge bill, which in asking for approaches to its bridge

took everything in sight for blocks, evidently for the purpose of constructing street railways leading to the bridge.

The administration has taken the most practical and sensible course in solving the Philippine problem that the situation admits of. There is little doubt that the action of the president will be approved by congress, upheld by the judiciary and sustained by the people.

In answer to Mark Twain's charges that "There was a reckless scramble of Christian wolves to get their share of indemnity," we would call Mr. Clemmons' attention to the "reckless wolves" who tried to get and did get many missionaries' lives.

The Cubans have wisely decided to accept the Platt amendment and not to trifle any longer with the United States, lest they jeopardize the cause of independence by playing into the hands of the annexationists.

## IVY EXERCISES ON THE UPPER CAMPUS

Today Was Class Day at the Graduating Exercises of the State University.

Madison, June 18.—Today is class day at the graduating exercises of the state university. This morning the ivy exercises were held on the upper campus with the planting of the ivy plant, accompanied by the ivy oration and ivy ode. This afternoon the miscellaneous class day exercises will be held in library hall, including addresses of welcome and farewell by the class president, Lyndon H. Tracy; class prophecy, farewell to underclassmen, junior response, farewell to faculty, presentation of the class memorial, a mammoth oak carved president's chair; farewell to buildings, class history and statistics, class day oration, and presentation of individual mementoes. The latter speech is to be delivered by Robert Knoff of Janesville.

In the evening at the opera house members of the class will present the Scotch melo-drama by James M. Barrie, "The Professor's Love Story." After the play the last class pow-wow and pipe of peace ceremonies will be held around a huge bon-fire on the lower campus. Mr. Knoff has a part in the class play and delivers the pipe of peace oration.

## CUBANS WILL BE CLOSELY WATCHED

Washington, June 18.—The cabinet at its meeting this afternoon will continue discussion of Cuban affairs which have occupied much of the time and attention of the president and his advisers for months. The acceptance of the Platt amendments by the Cuban constitutional convention is regarded as only an incident in determining what are to be our future relations with the islands.

The treaties that are to be negotiated with the island republic after its government is established are of infinitely more importance to this government, according to the president and his cabinet, than the simple acceptance of the amendments. The treaties will involve the location of the naval stations that are provided for in the abstract by the Platt amendments.

A majority of the president's advisers are strongly in favor of locating these stations at Havana, Matanzas, Santiago, Guantanamo and Cienfuegos, the five principal seaports of Cuba.

One idea that the president and a members of the cabinet seem to agree upon is that Cuba shall not have a standing army for any purpose. This government will maintain a force of several thousand marines at the several naval stations, and this will be ample, according to the president, to protect Cuba against internal as well as external dangers.

## Storm Sunday Night.

The storm on Sunday night was especially severe in the country about Emerald Grove. There appeared to be a regular cloud burst accompanied by heavy winds. A fierce lightning and a large amount of hail. People from this city who were out in the storm say it was the worst one they ever experienced.

A complete line of lawn shirt waists are now ready for inspection at the store of Bort, Bailey & Co.

## AFFAIRS IN CHINA IN GOOD SHAPE

An Early and Complete Agreement on the Indemnity Question is Very Probable.

Washington, June 18.—A cablegram has been received at the state department from Special Commissioner Rockhill fully confirming the report from Pekin to the effect that an early and complete agreement on the indemnity question is expected, and that, too, on the basis of the proposition variously known as the American, British and British-American.

The officials here are hopeful that the present week will witness the close of the negotiations on the subject of indemnity, though it is possible that a further slight delay may occur through a yielding to the desire of one of the ministers to consult with his home government.

Once the subject of indemnity is out of the way the withdrawal of foreign troops from China will progress with rapidity.

The members of the highway committee are up in arms against the way that some of the property owners have made mudholes of the streets in front of their property by the use of their lawn hose. They have taken steps to regulate the amount of water that is used by the street sprinklers and ask the people owning property on the streets to use a little judgment about the amount of water they throw through the hose. They are determined to put a stop to the practice of making mudholes in the streets even if they have to pass an ordinance to cover it.

## UNDER BRIDAL ARCH AT BELOIT

MISS ANNA HAVEN BROWN AND ROY C. HECOX MARRIED.

One of the Most Brilliant Weddings Seen in the Line City for Some Time—The Bride Was Well Known in Janesville—Happy Pair to Live in Denver.

Miss Anna Haven Brown, only daughter of Rev. and Mrs. W. F. Brown of Beloit, was happily married last evening to Roy Charles Hecox of Denver, Colorado. The marriage was solemnized at the home of the bride's parents, 704 Park avenue, Beloit, last evening at 8:30 o'clock, the wedding being one of the most brilliant and elaborate ever held in the city of Beloit. Three hundred invitations had been issued and there were but few regrets, the pleasant home being filled with witnesses of the beautiful and impressive ceremony.

The beauty of the wedding was greatly enhanced by the faultless elegance and perfect taste manifested in every detail. The home was handsomely decorated with a profusion of white flowers and foliage, no colors being used except the white and green. Syringa blossoms, roses, carnations and bachelor's buttons mingled their pure beauty and their sweet fragrance until the air was laden with their incense.

The corner where the marriage vows were taken was banked to the ceiling with syringa making an effective background for the bridal party.

At half after six the strains of Hohengrin's wedding march played by Miss Pangborn of Beloit, floated through the rooms and the members of the families of the contracting parties came down stairs and took their places among the wedding guests. Then the eight bridesmaids, clothed in gowns of dainty white descended the stairs and, stopping at the foot, sang the "Bridal Chorus." The effect was exquisite.

The bridesmaids were led by Miss Amanda Phetteplace, of Saginaw, Mich., sister of the groom and Miss Fannie Jackson of this city. Following came Misses Clara Titus, May Allen, Lottie Foster, Fannie Thompson and Edith Babbitt of Beloit and Miss Margaret Geddes, of Plattville.

As the closing notes of the "Bridal Chorus" died away, the bridesmaids proceeded from the hall through the parlors. They carried ropes of smilax and formed an aisle through which the bride and her maid of honor, Miss Mary Malone of Denver, cousin of the bride, approached the bridal corner where the groom and his best man awaited them. The groom was attended by Frank B. McCue, a student at the McCormick Theological Seminary, Chicago, and the groom's chum at Beloit college.

The bride's gown was a handsome creation of white silk and lace and she wore the bridal veil and carried white flowers. Her father, Rev. Dr. Brown, sanctified the exchange of marriage vows and pronounced the nuptial blessing.

After the ceremony and the congratulations an elegant wedding supper was served the guests being seated on the lawn while only the bridal party was served in doors. Mr. and Mrs. Hecox left for a lake trip and after their wedding journey they will go to their future home in Denver.

The bride is an intellectual and accomplished young woman who also possesses great personal charms. She has a host of friends by whom she is loved and of whom none are more loyal than those in this city which was her home for so many years. She and her chosen husband were classmates at Beloit college, Mr. Hecox graduating in the class of '98. He is one of Denver's prominent lawyers and is a most estimable young man who enjoys the high esteem of all who know him. Life holds forth bright promises for Mr. and Mrs. Hecox but no prosperity or happiness can exceed that which will be wished for them by their many friends.

Several friends from this city were numbered among the guests, among the number being Mr. and Mrs. A. A. Jackson and daughter, Miss Fannie Jackson; Mr. and Mrs. C. W. VanAkin and daughters, Misses Carolyn and Katherine Van Akin, Mrs. S. Kent, Mrs. Nellie Kennedy, Mrs. R. J. Hart, Misses Edith Echlin, Louise Hanson, Hannah Hanson, Elizabeth Paterson, Margaret Paterson, Matella Calkins and May Clark and Mr. Samuel Echlin. The Janesville party was also accompanied by Rev. and Mrs. Arthur Amy of Oregon, Wis., who are the guests of Mrs. Amy's parents, Mr. and Mrs. C. W. Van Akin and by Mrs. W. F. Winsey of Appleton, Miss Lella Blakeslee of Milwaukee and Miss Lillian Robinson of Chicago, who are visiting their friend, Miss Fannie Jackson.

Edward Brown and Robert Brown, brothers of the bride, Oscar Foster of Beloit and John Houlliston officiated as ushers.
